OUR FAITH IN THE PLANET

The Sacred Earth: Jewish Perspectives On Our Planet, edited by Andrue J. Kahn, with a Foreword by Kareenna Gore

EcoJudaism Overview

From a consideration of 'Jewish Ecological Wisdom for the Anthropocene Age' by Hava Tirosh-Samuelson to 'The Jewish Imperative of Sustainability' by Nina Beth Cardin and Avram Israel Reisner, this is a hot-off-the-press, cutting-edge collection of essential essays from the theological to the practical. A Jewish ecological 'must read'. – *Rabbi Jonathan Wittenberg*
